

Solar Decathlon India

Date: June 28, 2022

To  
The Office of the Registrar ✓

Dear Sir/ Madam,

I have enclosed a poster for the 2022-23 Solar Decathlon India Net Zero Building Challenge. I request you to put this up in an appropriate location on your campus where students and faculty can easily see it.

The Solar Decathlon India is a challenge among postgraduate and undergraduate students from Indian institutions to learn and design net-zero-energy-water, affordable, and resilient building solutions for real, live projects to combat Climate Change.

Solar Decathlon India is supported by the Department of Science and Technology, Government of India.

We look forward to participation of teams from your institution.

Prasad Vaidya  
Director, Solar Decathlon India
