Prof. Gauri Chakraborty
Professor,
IGIPSS,
B-Block Vikaspuri,
New Delhi - 110018

Sub: Appointment as Coordinator in 2nd Vivekananda Sustainability Summit at Dr. Ambedkar International Centre New Delhi.

Madam,

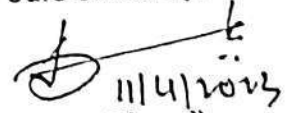

As you are aware that 2nd Vivekananda Sustainability Summit will be held on 12th April, 2023 at Dr. Ambedkar International Centre New Delhi. In this regard, you have been appointed as Coordinator of the above said programme.

Being a Coordinator of the above said programmes you are requested to attend the Summit with Volunteers of the Institute who will participate in the above said summit (list attached) on behalf of IGIPSS.

Hoping for your kind cooperation.

Thanking you,

Yours sincerely,

11/4/2023
(Prof. Sandeep Tiwari)
Principal (Offg.)

Encl: As above.

Ahimsa Vishwa Bharti

Organiser

Dr. Rajesh Sarwadnya
Founder - Vivekananda
Youth Connect Foundation

• Inauguration - 10:00am

• Valedictory & Award Function - 06:00pm

 **Wednesday, 12th April 2023**  **09:00am to 06.30pm**

Venue : Dr. Ambedkar International Centre, 15 Janpath Marg, New Delhi 110001
Register on : www.vssnewdelhi.in

Vivekananda Sustainability Awards shall be given to different individuals or organizations who have played stellar role in contributing towards the 17 Sustainable Development Goals (SDGs). These Global Goals are a collection of 17 interlinked global goals designed to be a "blueprint to achieve a better and more sustainable future for all". They were set up in 2015 by the United Nations General Assembly and are intended to be achieved by the year 2030. These are in line with Vedanta philosophy of Swami Vivekananda whose central thought has been unity of self and surroundings and environment as ultimate oneness. These awards shall be selected by an eminent jury through a structured process and designed to give balance to various areas of environmental agenda and consciousness. These shall be provided to individual and organizations who have been working towards these sustainability goals within the Indian geography or have contributed towards sustainability of Indian economy and society.

VIVEKANANDA SUSTAINABILITY CONFERENCE

The purpose of conference:

The global environment crisis has manifested itself in extreme climate events, impact on air, water, agriculture, livelihoods and many other dimensions of our ecosystem and threatens the sustainability of our human civilization if immediate remedial measures are not taken in multiple areas. A United Nations report on climate change considers this as "code red" for humanity. The Intergovernmental Panel on Climate Change (IPCC) noted that persistent global emissions have now made it impossible to prevent a temperature increase of 1.5 degrees Celsius while our planet is getting irreparably damaged. The environmental crisis is already unfolding and worst is yet to come.

VIVEKANANDA SUSTAINABILITY EXPO

Considering the environmental crisis facing our planet and humanity, it is important to have well thought global and national responses to mitigate crisis. If we analyse the national climate mitigation strategies announced during COP26 at Glasgow, more than 130 countries pledged to halt and reverse deforestation and land degradation by 2030, more than 100 countries signed the global methane pledge, 23 countries signed to phase out coal while some committed transition strategies among other plans. India committed targets like 50 percent of energy from renewable sources by 2030, reduce carbon emissions by 2030 by a billion tonnes among other goals.

Considering the ambitious targets for climate risk mitigation, usage of existing technologies along with invention and progress on new technologies shall play a crucial role in achieving these targets. Some examples include progress in battery technologies to hold more charge for sustained period at lower costs using material science and other technologies, advanced materials for solar panels, technologies to absorb carbon from environment, methane hotspots tracking, green hydrogen and myriad other areas. Like in every walk of life, technology shall play one of the central roles in climate mitigation strategies.

VIVEKANANDA SUSTAINABILITY SUMMIT

Hon. Bhupender Yadav Minister of Environment, Forest and Climate Change of India Launched Logo of Vivekananda Sustainability Summit by Vivekananda Youth Connect Foundation to be held in April 19/20 2022 at New Delhi.

MESSAGE

It is heartening to learn about the 2nd annual Vivekananda Sustainable Summit organised by Vivekananda Youth Connect Foundation (VYCF).

Swami Vivekananda devoted his life to national regeneration. His vision and thoughts inspired youngsters to work towards nation building. When young people build a strong and sustainable nation, it also contributes to building a better planet.

In any society, the youth bring energy, enthusiasm and innovative spirit. These are assets in the battle against climate change. Further, it is the younger generations who would be most affected by the impact of the climate crisis and therefore, it is natural that they lead this movement.

In this context, the efforts of VYCF to carry the sublime message of Swami Vivekananda to the youth across the nation are commendable.

Indian culture has sustainability and environmental consciousness as an integral part of its being. It is this spirit that has provided us the inspiration to lead the fight against climate change. From the International Solar Alliance to the movement to eliminate single-use plastic, from a massive expansion of renewable energy to Mission LiFE (Lifestyle For Environment) that creates 'Pro Planet People', our approach and efforts are never restricted to the geographical boundaries of India, but have always envisioned the welfare of humanity.

The various sessions at the Summit on sustainability aspects such as green hydrogen, electric vehicles and e-waste are extremely relevant. The participation of students from across the country, young entrepreneurs, representatives from urban and local bodies and policy makers at the Summit will facilitate a vibrant interaction between youth and experts in the field of sustainability and climate change. I am sure that the deliberations will generate fresh ideas and a commitment towards sustainability.

The Amrit Kaal of 25 years till the centenary of our independence is an opportunity to draw strength from the collective resolve of more than 140 crore people to build a cleaner, greener and self-reliant India.

Best wishes for the success of the 2nd annual Vivekananda Sustainable Summit.

(Narendra Modi)

AT SHOPPING STALLS

Conclusion

A big Congratulations for successfully conducted VIVEKANANDA SUSTAINABILITY SUMMIT 2023. To spread awareness about the environmental crises and 17 Sustainability development goals to transform our world. Big Thanks for everyone especially our Core Management team, Volunteers(IGIPSS), Dignitaries, Venue staff and other supporting members.

Recommendation

- This is a very big platform for my volunteers learning lot of things.
- My volunteers learned lot of things for this event as a grassroot level and Management level
- This type of events very helpful for my senior volunteers as a top-level management.
- This type of event very helpful for my junior volunteer show to organised events and handle the stressful situations.
- My volunteers are always ready for this type of events.
